All India Radio is the largest radio network in the world, and one of the largest broadcasting organizations in the world in terms of the number of languages broadcast and the spectrum of socio-economic diversity.

WebTek Pvt. Ltd | MACHINE LEARNING INTERN
June 2019 – August 2019
WebTek Labs Pvt. Ltd. Is recognized as a leading IT solution providing the organization with a dynamic and fast-growing team of diversely talented individuals.

PROJECTS

FACE DETECTION | project link
Face Detection is one of the important aspects when it comes to security. Here I have used OpenCV. I have Added new features such as Eye Detection, currently working to improvise this project by adding features to detect the mood of the user.

LANGUAGE TRANSLATOR | project link
Language Translator is a tool used to narrow the gap between different languages. I have made this project using Graphic User Interface with the help of tkinter Python. Language is the integral part of the communication, so on a large eye view, this can be used in intercountry business and can be helpful.

PASSWORD GENERATOR | project link
Password Generator is a tool which suggests strong password. Security is the major concern nowadays. Password Generator can be used whenever we are signing up. Strong Password would make people's account safe.

INSTAGRAM CLONE | project link
Instagram clone is a small version of Instagram app which uses SQL lite as its database and Lottie for designing the UI. Here I have used public API of Instagram, Glide for images and Recycler Views.
